PROFILE

I am a Frontend Developer and Visual Designer dedicated to creating visually compelling and high-performing digital experiences. I design and develop interfaces that not only look great but also effectively communicate brand value and engage users

WORK EXPERIENCE

Freelance 2022 - 2024
Freelance Frontend Developer & Graphic Designer

- Developed responsive and user-friendly websites using modern frontend technologies. Designed visual content including social media graphics, promotional posters, and branding materials. Focused on creating clean UI designs, ensuring consistency, and delivering engaging digital experiences based on client needs.

Government Institution 2025
IT Support

- Provided technical support by maintaining computer systems, installing and configuring software, and troubleshooting hardware and network issues. Supported daily IT operations to ensure system stability, efficiency, and smooth workflow across departments.

Freelance 2026 - Present
Freelance Frontend Developer & Graphic Designer

- Continuing to design and develop modern, responsive web interfaces while producing creative visual and video content. Emphasizing usability, performance, and visual consistency to deliver high-quality results and meet client expectations.

EDUCATION

Informatics Engineering 2017 - 2022
Widya Mandira Catholic University - Kupang, Indonesia
GPA: 3.23 / 4.00
